Plaintiffs are residents of the State of Michigan, and Defendant is incorporated and has as its primary business in the State of New Jersey. The amount in controversy, exclusive of interest and costs, exceeds \$75,000.
- Venue is proper within this district pursuant to Case Management Order No. 3, filed
   November 1, 2006, signed by John F. Keenan, allowing Fosamax-related cases to be

filed directly in the Southern District of New York.

#### II. PARTIES

- 3. Plaintiff JoANN HANSON was born January 5, 1941. Plaintiff used FOSAMAX from approximately April 2001 until approximately May 2006. Plaintiff JoANN HANSON was married to THOMAS M. HANSON and they were residents of The State of Michigan at all times material to this action.
- 4. Defendant is a corporation organized and existing under the laws of the State of New Jersey, with its principal place of business in New Jersey. The Defendant's registered office is at 820 Bear Tavern Road, City of West Trenton, Mercer County, New Jersey.
- 5. Defendant was at all relevant times authorized to conduct business in the State of Michigan.
- 6. Defendant has regularly transacted business in the State of Michigan and continues to do so.
- 7. At all relevant times Defendant, through its agents, servants, employees and apparent agents was the designer, manufacturer, marketer, distributor and seller of FOSAMAX, a bisphosphonate drug used primarily to mitigate or reverse the effects of osteoporosis.
- 8. Defendant, either directly or through its agents, apparent agents, servants or employees, at all relevant times, sold and distributed FOSAMAX in the State of Michigan for the treatment of osteoporosis.

- 9. Defendant derives substantial revenue from pharmaceutical products used or consumed in the State of Michigan.
- 10. Defendant expected, or should have expected, that its business activities could or would have consequences within the State of Michigan.

#### III. SUMMARY OF THE CASE

- 11. Defendant, either directly or through its agents, apparent agents, servants or employees designed, manufactured, marketed, advertised, distributed and sold FOSAMAX for the treatment of osteoporosis, Paget's Disease, and other off-label uses.
- 12. As a result of the defective nature of FOSAMAX, persons who were prescribed and ingested FOSAMAX, including Plaintiff JoANN HANSON, have suffered and may continue to suffer severe and permanent personal injuries to the jaw bone, including osteonecrosis of the jaw and other diagnoses of irreversible damage to the jaw.
- 13. Defendant concealed its knowledge of FOSAMAX's unreasonably dangerous risks from Plaintiff JoANN HANSON, other consumers, and the medical community.
- 14. Defendant failed to conduct adequate and sufficient post-marketing surveillance of FOSAMAX after it began marketing, advertising, distributing, and selling the drug.
- 15. As a result of Defendant's actions and inaction, Plaintiff JoANN HANSON was injured due to her ingestion of FOSAMAX, which has caused and will continue to cause Plaintiffs' various injuries and damages. Plaintiffs accordingly seek compensatory damages.

### IV. FACTUAL BACKGROUND

- 16. At all relevant times Defendant was responsible for, or involved in, designing, manufacturing, marketing, advertising, distributing, and selling FOSAMAX.
- 17. In September 1995, the United States Food and Drug Administration ("FDA") approved Merck's compound alendronate, which is marketed by Merck as FOSAMAX, for various uses, including the treatment of osteoporosis and Paget's Disease.
- 18. FOSAMAX falls within a class of drugs known as bisphosphonates.

  Bisphosphonates are used for treating bone conditions such as osteoporosis and Paget's disease. Other drugs within this class such as Aredia and Zometa are also used as chemotherapy and as adjunct chemotherapy but are not indicated for use in non-cancerous conditions such as osteoporosis.
- 19. There are two classes of bisphosphonates: the N-containing (nitrogenous) and non-N-containing (non-nitrogenous) bisphosphonates. The nitrogenous bisphophonates include the following: pamidronate (Aredia); ibandronate (Boniva); risedronate (Actonel); and alendronate (FOSAMAX). The non-nitrogenous bisphosphonates include the following: etridonate (Didronel); clodronate (Bonefos and Loron); and tiludronate (Skelid). Alendronate, like the others, contains a nitrogen atom, whereas etridonate, clodronate, and tiludronate do not. The PDR for FOSAMAX confirms that the molecule contains a nitrogen atom.

- 21. Merck knew and or should have known that bisphosphonates, including FOSAMAX, inhibit endothelial cell function. Similarly, Merck knew or should have known that bisphosphonates also inhibit vascularization of the affected area and induce ischemic changes specific to patients' mandibles (lower jaws) and maxillae (upper jaws) and that these ischemic changes appear to be cumulative in nature.
- 22. Merck also knew or should have known these factors combine to create a compromised vascular supply to the affected area. As a result, a minor injury or disease can turn into a non-healing wound. That in turn can progress to widespread necrosis (bone death) and osteomyelitis (inflammation of bone marrow).
- 23. Dentists are now being advised by state dental associations to refrain from using any invasive procedure (such as drilling a cavity) for any patient on FOSAMAX.
- 24. Once the osteonecrosis begins and becomes symptomatic, it is very difficult to treat and is not reversible.

Page 6 of 29

- 25. Shortly after Defendant began selling FOSAMAX, reports of osteonecrosis of the jaw and other dental complications among users began surfacing, indicating that FOSAMAX shared the class effects of the other nitrogenous bisphosphonates. Despite this knowledge, Defendant failed to implement further study of the risk of osteonecrosis of the jaw relative to FOSAMAX. Rather than evaluating and verifying the safety of FOSAMAX with respect to osteonecrosis of the jaw, Defendant proposed further uses of FOSAMAX, such as FOSAMAX-D, and sought to extend the exclusivity period of FOSAMAX through 2018.
- 26. Osteonecrosis of the jaw is a serious medical event and can result in severe disability and death.
- 27. Since FOSAMAX was released, the FDA has received a number of reports of osteonecrosis of the jaw among users of FOSAMAX.
- 28. On August 25, 2004, the FDA posted its Office of Drug Safety ("ODS")

  Postmarketing Safety Review on bisphosphonates - specifically pamidronate

  (Aredia), zoledronic acid (Zometa), risedronate (Actonel), and alendronate

  (FOSAMAX). This was an epidemiologic review of the FDA adverse events database conducted by the FDA's Division of Drug Risk Evaluation.
- 29. As a result of the FDA Review, the FDA observed that the risk of osteonecrosis of the jaw was not confined to bisphosphonates used for chemotherapy. The FDA's review indicated that osteonecrosis of the jaw was a class effect that specifically extended to the oral bisphosphonate FOSAMAX.

- 30. As a result, the FDA recommended and stated that the labeling for FOSAMAX should be amended by Merck to specifically warn about the risk of osteonecrosis of the jaw. Merck has refused to accede to the FDA's request and, to this day, still does not warn of the risk of osteonecrosis of the jaw in its FOSAMAX labeling.
- Rather than warn patients, and despite Defendant's knowledge of an increased risk 31. of osteonecrosis of the jaw in patients using FOSAMAX, Defendant continues to defend FOSAMAX and minimize unfavorable findings.
- FOSAMAX is one of Defendant's top selling drugs, averaging more than \$3 billion 32. a year in sales.
- Consumers, including Plaintiff JoANN HANSON, who have used FOSAMAX for 33. treatment of osteoporosis, have several alternative safer products available to treat the conditions.
- Defendant knew of the significant risk of dental and oral complications caused by 34. ingestion of FOSAMAX, but Defendant did not adequately and sufficiently warn consumers, including Plaintiff JoANN HANSON, or the medical community, of such risks.
- 35. As a direct result, Plaintiff JoANN HANSON was prescribed FOSAMAX and has been permanently and severely injured, having suffered serious consequences from the ingestion of FOSAMAX. Plaintiff JoANN HANSON requires and will in the future require ongoing medical care and treatment for the injuries she suffered as a result of taking FOSAMAX.

- 36. Plaintiff JoANN HANSON has suffered mental anguish as a result of knowing the life-long complications she will suffer as a result of the injuries Plaintiff sustained from the use of FOSAMAX.
- 37. Plaintiff JoANN HANSON was prescribed and began taking FOSAMAX in April 2001.
- 38. Plaintiff used FOSAMAX as prescribed and in a foreseeable manner.
- 39. As a direct and proximate result of using FOSAMAX, Plaintiff suffered severe personal injury to the jaw.
- 40. Plaintiff, as a direct and proximate result of using FOSAMAX, suffered severe mental and physical pain and has sustained permanent injuries and emotional distress.
- 41. Plaintiff used FOSAMAX which had been provided to her in a condition that was substantially the same as the condition in which it was manufactured and sold.
- 42. Plaintiff would not have used FOSAMAX had Defendant properly disclosed the risks associated with the drug. Alternatively, Plaintiff would have known the precursor events of osteonecrosis of the jaw and would have been able to avoid the clinical manifestation of the symptoms as they currently exist.
- Defendant, through its affirmative misrepresentations and omissions, actively 43. concealed from Plaintiff and her physicians the true and significant risks associated with taking FOSAMAX. The running of any applicable statute of limitations has been tolled by reason of Defendant's fraudulent concealment.

As a result of Defendant's actions, Plaintiff and her prescribing and treating physicians were unaware, and could not have reasonably known or have learned through reasonable diligence, that Plaintiff had been exposed to the risks identified in this complaint, and that those risks were the direct and proximate result of Defendant's acts, omissions, and misrepresentations.

#### V. COUNTS

## **COUNT I: NEGLIGENCE**

- 45. Plaintiffs re-allege the above paragraphs as if fully set forth herein.
- 46. Defendant owed Plaintiff, JeANN HANSON, other consumers, and physicians a duty to exercise reasonable care when designing, manufacturing, marketing, advertising, distributing, and selling FOSAMAX.
- 47. Defendant failed to exercise due care under the circumstances and therefore breached this duty by:
- a. failing to properly and thoroughly test FOSAMAX before releasing the drug to market;
- b. failing to properly and throughly analyze the data resulting from the pre-marketing tests of FOSAMAX;
  - c. failing to conduct sufficient post-market testing and surveillance of FOSAMAX;
- d. designing, manufacturing, marketing, advertising, distributing, and selling FOSAMAX to consumers, including Plaintiff, without an adequate warning of the significant and dangerous risks of FOSAMAX and without proper instructions to avoid the harm which

could foreseeably occur as a result of using the drug;

- e. failing to exercise due care when advertising and promoting FOSAMAX; and
- f. negligently continuing to manufacture, market, advertise, and distribute FOSAMAX after Defendant knew or should have known of its adverse effects.
- As a direct and proximate consequence of Defendant's actions, omissions, and misrepresentations, Plaintiff JoANN HANSON sustained significant and permanent injury of the jaw. In addition, Plaintiff required and will continue to require healthcare and services as a result of the injury suffered. Plaintiff has incurred and will continue to incur medical and related expenses as a result of her injury. Plaintiff has also suffered and will continue to suffer diminished capacity for the enjoyment of life, a diminished quality of life, increased risk of premature death, aggravation of preexisting conditions and activation of latent conditions, and other losses and damages. Plaintiff's direct medical losses and costs include care for hospitalization, physician care, monitoring, treatment, medications, and supplies. Plaintiff has suffered and will continue to suffer mental and physical pain as a result of her injuries.
- 49. Defendant's conduct as described above was committed with knowing, conscious, wanton, willful, and deliberate disregard for the value of human life and the rights and safety of consumers such as Plaintiff, thereby entitling Plaintiff to punitive damages so as to punish Defendant and deter it from similar conduct in the future.
- 50. Plaintiff JoANN HANSON's spouse, THOMAS M. HANSON, sustained a loss of

consortium as a result of the injuries and damages sustained by his wife incident to the use of FOSAMAX. His damages include, but are not limited to, a loss of society, companionship, services, support, and care. His losses are permanent and continuing in nature.

### **COUNT II: STRICT LIABILITY**

- 54. Plaintiff used FOSAMAX as prescribed and in a manner normally intended, recommended, promoted, and marketed by Defendant.
- 55. FOSAMAX failed to perform safely when used by ordinary consumers, including Plaintiff, including when it was used as intended and in a reasonably foreseeable manner.
- 56. FOSAMAX was defective in its design and was unreasonably dangerous in that its unforeseeable risks exceeded the benefits associated with its design or formulation.
- 57. FOSAMAX was defective in design or formulation in that it posed a greater

- likelihood of injury than other similar medications and was more dangerous than an ordinary consumer could reasonably foresee or anticipate.
- 58. FOSAMAX was defective in its design and was unreasonably dangerous in that it neither bore nor was packaged with nor accompanied by warnings adequate to alert consumers, including Plaintiff, and or physicians, of the risks described herein, including, but not limited to, the risk of osteonecrosis of the jaw.
- 59. Although Defendant knew or should have known of the defective nature of FOSAMAX, it continued to design, manufacture, market, and sell FOSAMAX so as to maximize sales and profits at the expense of the public health and safety. By so acting, Defendant acted with conscious and deliberate disregard of the foreseeable harm caused by FOSAMAX.
- Plaintiff and or her physician(s) could not, through the exercise of reasonable care, have discovered FOSAMAX's defects or perceived the dangers posed by the drug.
- As a direct and proximate consequence of Defendant's actions, omissions, and misrepresentations, Plaintiff JoANN HANSON sustained significant and permanent injury of the jaw. In addition, Plaintiff required and will continue to require healthcare and services as a result of the injury suffered. - 66. FOSAMAX does not conform to Defendant's express representations because it is not safe, has numerous and serious side effects, and causes severe and permanent

injuries.

Plaintiff's direct medical losses and costs include care for hospitalization, physician care, monitoring, treatment, medications, and supplies. Plaintiff has suffered and will continue to suffer mental and physical pain as a result of her injuries.
- 70. Defendant's conduct as described above was committed with knowing, conscious, wanton, willful, and deliberate disregard for the value of human life and the rights and safety of consumers such as Plaintiff, thereby entitling Plaintiff to punitive damages so as to punish Defendant and deter it from similar conduct in the future.

71. Plaintiff JoANN HANSON's spouse, THOMAS M. HANSON, sustained a loss of consortium as a result of the injuries and damages sustained by his wife incident to the use of FOSAMAX. His damages include, but are not limited to, a loss of society, companionship, services, support, and care. His losses are permanent and continuing in nature.

## **COUNT IV: BREACH OF IMPLIED WARRANTY**

- 72. Plaintiffs re-allege the above paragraphs as if fully set forth herein.
- 73. Defendant manufactured, distributed, advertised, promoted, and sold FOSAMAX.

- 75. Defendant was aware that consumers, including Plaintiff JoANN HANSON, would use FOSAMAX for treatment of osteoporosis and for other purposes.
- 76. Plaintiff and the medical community reasonably relied upon the judgment and sensibility of Merck to sell FOSAMAX only if it was indeed of merchantable quality and safe and fit for its intended use.
